

Overview of Sport Premium Funding **2015 - 2016**

The Sport premium funding has been given to every Primary school this year to improve provision in the following areas:

- 1) Achievement in weekly PE lessons.
- 2) Increased participation in competitive school sport.
- 3) Personal health and well-being.
- 4) Improved attitudes and behaviour towards learning.

This funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools.

During the academic year 2015-2016, East Hanningfield C of E Primary plans to spend our funding (£8460) received in the following:

Updating and expanding PE and sports equipment

After consultation with staff and children, we aim to buy additional equipment that will continue to aid high quality teaching and support a more sustainable PE curriculum. Our priority for the future is the sustainability of our swimming pool as we need to ensure that every child in school can learn to swim competently, confidently and proficiently over a distance of 25 metres. They need to swim a range of strokes and perform safe self-rescue before leaving East Hanningfield School. The aim is to replace and extend the equipment to enable children to swim for longer periods of time. We are aware of the need to improve and introduce new equipment to enable this valuable asset to be used by the current children and future children attending the school.

Continuous Professional Development opportunities for staff

Teachers and Teaching Assistants will continue to be offered a vast array of CPD opportunities to expand their lesson repertoire and develop new ideas for their curriculum lessons. CPD opportunities are crucial in a school that wishes to continue moving forwards and improving.

Learning and teaching will continue to be monitored by the PE Co-ordinator on a regular basis to celebrate our strengths and address any weaknesses. The CPD support is offered through the Chelmsford Schools Sports Partnership and the aim is to increase the numbers of staff attending CPD events.

Specialist opportunities to inspire

We believe that children will lead healthy lives now, and in the future, if they are inspired and have a genuine understanding of the importance of eating healthily and staying active. We would like to provide the children with visitors and trips that will engage and motivate them to lead healthy lifestyles. We intend to focus on 'The Road to Rio' in the Summer Term linking to the Olympics as part of a local sports partnership initiative.

Supporting talented athletes

We are fortunate to have a pupil in school that is on a pathway to regional and national success. East Hanningfield aims to support this athlete and any future athletes identified with their time, school-work and equipment/transport, which would not be possible without funding from the school.

Membership to the Chelmsford School Sports Partnership

Joining the CSSP will provide ample opportunities for our staff and children to experience a wider range of PE and sport. Our members of staff now access a more thorough CPD programme through the Partnership, and children are attending a wide range of competitions and enriching events. This year we are aiming to increase the number of events children attend to compete against other schools and increase the CPD attendance at events throughout the year.

School Council Budget

Our newly formed Sports Crew led by Sports Ambassadors will be given a budget to spend on an area of learning they feel could be developed at East Hanningfield. As part of this new initiative they will lead a whole school level one competition termly and may need resources to run new events. The team will decide how to spend the funding and will order the resources.
