

# CHARACTERS

Jack is a funny but dumb guy

Sam is funny and very smart at maths

In Jack's room he is struggling with his maths homework with a simple  $9 \times 9$  question

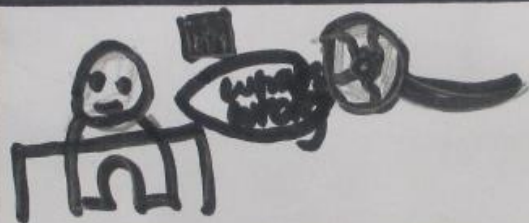

ugh what is  $9 \times 9$

And then he calls for Sam's help.

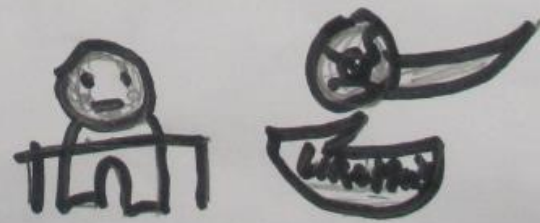

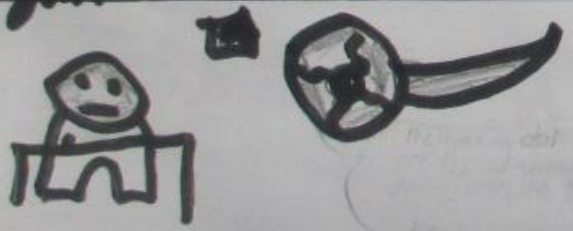

yo! Sam arrives.

Then Jack tells him what he is stuck with

1.3 seconds later Sam starts to tell him how to work out the  $9 \times 9$ 's table Jack

Some time later he then shows him that  ~~$9 \times 9 = 81$~~   
 $9 \times 9 = 81$

Handwritten calculation showing  $9 \times 9 = 81$  with a vertical line and the number 10 written below it, and the final answer 'answer = 81'.
