

ONE DAY:

I know someone who can help!

I can't work out my area

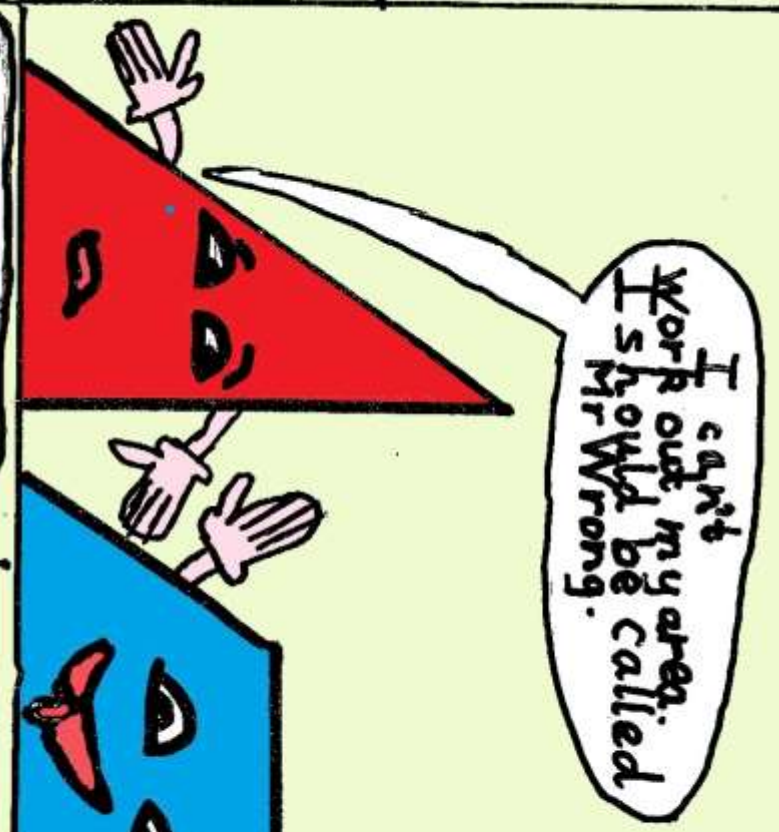

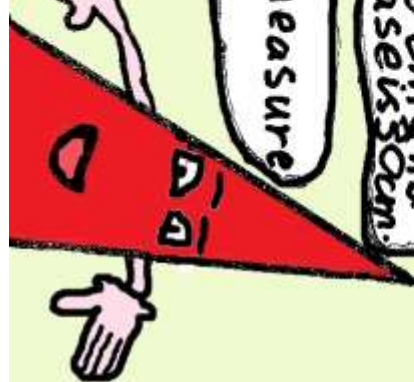

Whats up Mr Squares?

What's wrong little? one need help!

I'll measure you

Your height is 40 cm and your base is 30 cm.

I can't work out my area. It's Mr Wrong.

(Height x Base) ÷ 2 = area

Which means my area is 600 cm

Hooray! I know my area!
