Progress Measures:

A score of 0 means pupils in this school on average do about as well at KS2 as those with similar prior attainment nationally.

A positive score means pupils in this school on average do better at KS2 as those with similar prior attainment nationally.

A negative score means pupils in this school on average do worse at KS2 as those with similar prior attainment nationally.

A negative score does not mean that pupils did not make any progress, rather it means they made less progress than other pupils nationally with similar starting points.

For example, if a school has a maths score of -2.5 this would mean that on average pupils in this school achieved 2.5 scaled scores less than other pupils nationally with similar starting points.
